Portuguese 100%
English 85%

Experience

CURRENT

ING Infinitive / Senior Frontend Developer

2021 - Present, Remotely working for Swiss

- Developed layouts and components for a Ski Sports application, ensuring responsive design and optimal user experience for the Swiss Ski Federation.
- Designed and implemented the frontend architecture, creating scalable HTML Layouts and reusable components tailored to the application's requirements.
- Led the development and maintenance of a PWA, implementing features such as offline support, GPS, push notifications and responsive design.
- Participated in discovery sessions to gather requirements, contribute to prototypes, and support cross-functional collaboration for delivering user-focused interfaces.

PREVIOUS

Share IT | Alencastre Group / Frontend Developer

2019 - 2021, Parque Tecnológico de Óbidos

- Development of PWA applications in React.js, featuring integrated maps and GPS functionalities for location tracking and coordination. These applications were tailored for clients and lobbies of Meliã Hotels.
- Developed responsive markups with Bootstrap and Javascript for Umbraco platform integration, converting prototypes from Figma to Html.
- Designed and developed HTML email templates for MailChimp marketing campaigns.

INM Innovation Makers / Frontend Developer

2017 - 2019, Lisboa / Parque Tecnológico de Óbidos

- Developed animations using JavaScript and Sass for integration into payment applications on vending kiosks deployed in Africa.
- Mentored interns by overseeing their daily tasks and facilitating their integration into the team.
- Key touch point for client's marketing, research, and development team for discussing project ideas, capturing their goals, and turning them into visual designs and layouts for client review

Janela Digital | Casa Sapo / Frontend Developer

2015 - 2017, Parque Tecnológico de Óbidos

- Developed responsive websites in HTML5, JavaScript, PHP, and Less for Ego Real Estate platform, focusing on the real estate market.
- Designed and developed templates for web stores and JavaScript plugins for real estate market platforms.

Education

Professional Course in Web Development Environment

2014 - 2015, CENCAL - Caldas da Rainha

- Plus 6 months internship on Innovation Makers company.
